This technical drawing illustrates a complex mechanical assembly, likely a valve or actuator, featuring several key components and their interactions:

- Outer Housing:** The main structure is labeled with reference numerals 1, 11, 12, 21, 31, 32, 32a, 32C, and 4A.
- Shaft and Seal:** A central shaft is labeled with 17a, 17, 22, 30Ab, 30A, and 30C. It is supported by bearings labeled 24 and 24a, which are mounted on a housing section labeled 4A.
- Valve Components:** A valve disc or seat is labeled 14A, and a valve stem or rod is labeled 4A.
- Control Mechanism:** A lever or control arm is labeled 4B, and a connecting rod or link is labeled 4A.
- Actuator:** A large, curved actuator arm or cylinder is labeled 32, which is connected to the shaft assembly.
- Labels A and B:** The labels A and B are used to indicate different views or positions of various parts, such as the shaft assembly and the valve components.
